Dear Voice Products:

I am writing you to express our satisfaction with the effectiveness of your cigarette detection devices. Before installing your system, keeping our smokers out of the restrooms was nearly impossible. Many man-hours were spent devising supervision schedules and locking/unlocking restrooms.

After installing your system, I am happy to say we now have the upper hand in this battle. When a student lights up, security and administration get a page telling them exactly which bathroom to check. Word spread quickly throughout the school. Within two weeks, smoking in the restroom decreased tremendously.

Thank you for a much needed product!
